

## **COUNCIL ON HIGHER EDUCATION**

### **PUBLIC ANNOUNCEMENT**

Council on Higher Education (CHE) has launched an online system for Verification and Evaluation of qualifications. The system is called **Lesotho Qualifications Management Information System (LQMIS)**. Both verification and evaluation processes are fully digital. Upon successful verification or evaluation of qualifications CHE issues a Certificate confirming authenticity of such qualifications. This certificate will also be issued digitally from now onwards.

**Evaluation** is the process of analysing qualifications in terms of their country-of-origin contexts establishing differences and/or similarities in relation to local qualifications and contexts. It relates the level of a qualification against the Lesotho Qualifications Framework (LQF).

**Verification** is a process of establishing credibility of an award by determining the accreditation of institutions, accreditation of a qualification and the authenticity of qualification holder

Employers expect people to verify and/or evaluate their qualifications when they apply for jobs, both in Government and in Private Companies. In addition, Basotho who apply for evaluation at the South African Qualifications Authority (SAQA), are requested to verify their qualifications with CHE. Everyone is strongly advised to apply for verification and/or evaluation well ahead of time. To verify and/or evaluate your qualifications, please visit <https://lqmis.che.ac.ls> and apply NOW.
