SAQAN WEBINAR

Title: Quality Assuring Micro Credentials: Lessons from Practice

Proposed Date: 01st December 2026
Host: Southern African Quality Assurance Network (SAQAN)
Presenters: CHE Lesotho, CHE South Africa, HEC Mauritius and NCHE Namibia

Time: 2:00p.m - 4:00p.m. (2 Hours)

Participants: Exclusive to SAQAN Members

Summary of the Webinar:

Potential of Micro Credentials in Southern Africa (PoMISA) is a regional initiative aimed at strengthening quality assurance (QA) of micro-credentials in Southern Africa through collaboration among higher education quality assurance agencies and other relevant stakeholders.

In this webinar, Council on Higher Education Lesotho, National Council for Higher Education Namibia, Council on Higher Education South Africa and Higher Education Commission Mauritius, will be sharing their journeys and lessons learnt in quality assurance of micro-credentials as a basis for capacitating members as they go through their own journeys. These countries participated in the PoMISA project whose main objective was to strengthen higher education capacity in Southern Africa through the development of policies, principles and frameworks for micro-credentials.

In the context of higher education, micro-credentials are short, focused learning programmes that provide learners with specific knowledge, skills or competencies.

SAQAN is planning to host the webinar on **01st December 2026**, under the theme **"Quality Assurance in Micro-Credentials."**
